Is this hydraulic fracturing?

We are looking at Thursday 2/23, at 12:30 for conference call to update congressional staff. Last time we did an update there were a lot of questions on our authorities. Is it possible to get an OECA and OSWER rep on the call? I will forward call-in info next week.

Thanks
Pamela

Thursday works great and Jerry is more than welcome to join and I may invite a staff member from ENR and Portman's office if that's not a problem. I think 12:30 would work best. Thanks and have a great weekend.
Dimitri

There are some discussions going on that make a call on Thursday the best day to update you. The available time is between 12:30 and 2. Please let me know what one hour slot works best. Also, last time I invited Jerry Couri to participate. Do you have an objection to extending invitation again?

Thanks.
Pamela

Morning Pamela,
I saw yesterday that EPA was discussing "multimedia" investigations in Washington County, PA which began as early as September. With these new investigations just being made public as well as the agencies continued action in Dimock, I would like to request a briefing from staff sometime next week to get an update of the agencies actions in the area as well as latest findings. Please let me know what would work on your end and I can make sure I am available.
Thanks,
Dimitri
